PROJECTS

upGrad-clone

- UpGrad is a higher education company that provides courses for individuals to enhance their skills and gain new knowledge.
- Tech Stacks - HTML, CSS and JavaScript
- Team Size - 3
- Duration - 2 weeks
- My Responsibilities - Made 'Explore our courses' section on the landing page, 'Hire from upGrad' page and made some pop-up's. I used local-storage for storing the data.

Glassdoor-clone

- Glassdoor is an American website that provides insights about jobs and companies where current and former employees anonymously review companies.
- Tech Stacks - HTML, CSS, React, JSON-server, Material-UI
- Team Size - 4
- Duration - 4 days
- My Responsibilities - Made the Dashboard page, profile page, added responsiveness to the dashboard page and removed some bugs and warnings from the whole project.

Hyannis Plaza hotel - clone

- We cloned Hyannis Plaza hotel website to demonstrate a online hotel management system. Hyannis Plaza hotel is a luxury hotel with a restaurant and outdoor pool.
- Tech Stacks - HTML, CSS, React, Redux, JSON-server, Material-UI
- Team Size - 4
- Duration - 5 days
- My Responsibilities - created a package page, created a form on the Rooms Booking page, and implemented the filter rooms functionality.
